**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 & 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allefeld (US Patent No. 4,531,374) in view of "Official Notice". Allefeld discloses a multistage apparatus which operates with an absorption system comprising: an expansion machine (turbine), a compressor and an absorber. Allefeld lacks to mention Co2 refrigerant usage. Examiner takes "Official Notice" since it is well known to utilize Co2 as a refrigerant.

***Allowable Subject Matter***

Claims 3-24 are allowed over the prior art of record.
